Commenting on the developments, Chief Executive Officer, Henry Engelhardt, said: "We are pleased to announce extensions of these key UK reinsurance contracts to at least the end of 2015. Reinsurance has been at the core of Admiral's successful business model since 2000, allowing us to manage our downside exposure while still participating in upside through profit commission arrangements. It significantly reduces the amount of capital the Group is required to hold and frees up resources for distribution to shareholders and growing the business. We look forward to continuing our mutually beneficial relationships with our partners for many years to come."
